THE importance of purity in Photographic Chemicals must suggest itself to all. Our imports have for the past half century been acknowledged as PRACTICALLY PURE, THOROUGHLY RELIABLE, and of UNIFORM STRENGTH AND CHARACTER. Commercial samples (as met with in Indian bazaars) though perhaps unadulterated in the strict sense of the term, are not always to be depended upon, as they are liable to be contaminated with other matter which will unfavourably affect results when operating.

Two years' guarantee. Sent post free to every Station in India.

MESSRS. FAVRE, LEUBA & Co. beg to draw particular attention to the above watches, and confidently recommend them to every person who wants to buy a watch: CHEAP, STRONG, and GOOD.

These watches are of moderate size, in an extremely well-made and tight-shutting German Silver case.

The movement is protected inside by a glass dome.

The movement has a Patent Lever Escapement, built on the soundest scientific principles.

The watches are keyless, and the hands are set also through the keyless mechanism, so that there is no necessity of opening the watch.

The watches have a second hand.

The figures of the dial and the hands are left extra bold, so that the time can be seen instantly on a glance at the dial, and in nearly complete darkness.

The watch, as a whole, combines strength with all the conditions necessary to good time-keeping.

This watch has proved a complete success as a CAMPAIGN WATCH, and its usefulness is recognised by the daily increasing demand from all quarters of our Army in the field.

To Shikaries, Sportsmen, &c., these watches will prove to stand any amount of rough usage and handling.

We guarantee riding will not affect the working of these watches, care, and cleaned once every two years, will give a 15 years good service.

Every watch is fitted in a wooden case, in which will be found a spare glass, and a spare mainspring.

We receive now regular shipments of these watches by each mail, and every order can for the future be executed by return post.

Only watches that have been examined and timed are despatched on orders.

2 years' guarantee. Packing and postage free.

COMMERCIAL INTELLIGENCE.

MONDAY EVENING, OCT. 25.

REUTER'S closing telegram of Saturday advises a further rise of ¼ in Consols, which now stand at 99⅛. French Rentes are unchanged at 120¼, and Indian Government Securities at 80½ for Fours and 87½ for Fours-and-a-half.

We have already reported upon the movements in Cotton, and in General Produce the only alteration worthy of note is a partial decline of 6d. per quarter in Wheat to arrive.

The Bank of Bombay return for the week ending on Saturday shows the following changes :—

Public Deposits at B. O.	Inc.	Rs.	20,924
Do. do. Branches	Inc.	,,	2,34,333
Government Securities	Inc.	,,	18,58,233
Loans	Dec.	,,	1,28,702
Bills Discounted	Inc.	,,	9,31,206
Cash with Correspondents	Dec.	,,	4,245
Cash and Currency notes	Inc.	,,	1,31,563

Notwithstanding the increase in Bills Discounted, the return is the reverse of strong, and the Presidency Bank, like the Exchange Banks, has evidently been driven to buying Government Securities as an investment, failing other means of employing funds. Cheap as money now is, we see no probability of things changing before the end of the year, and although rates of discount may not alter, the general tenor of the market will still be weak.

EXCHANGE.—Although Calcutta advices come somewhat weaker than on Saturday, the tendency here to-day has been, if anything, a shade steadier, inasmuch as there has been a seller of demand Bank Bills at 1 32d. over Saturday's closing rate. Otherwise, however, there has been no special firmness apparent. On the contrary, the other Banks are fully as good buyers forward as they were. As usual, the result of the biddings for Council drafts will be the key of the market for the issuance of the mail ; but it is difficult as yet to say, with any approach to certainty, what the figure will be, present ideas ranging from 1s. 7 7d. to 1s. 8d. per rupee. We quote for ready bills :—

Bank Bills on demand	1s. 7 15-16d.	per Rupee.
Do. Telegraphic	1s. 7¾d.	,,
Do. 4 months' sight	1s. 8 1-16d.	,,
Credits, 3 ,,	1s. 8 3-32d.	,,
Documents, 3 ,,	1s. 8 3-16d.	,,
Francs, 3 ,,	2 33/4	,,

On Calcutta we still quote demand drafts at ¼ per cent. premium, 60 days' sight at ⅜ per cent. discount.

GOVERNMENT PAPER has not been quite so active to-day, and so far as rates are concerned, has certainly been no stronger ; although we learn that Calcutta quotations have advanced to something like a parity with our own. Transactions, from what we can learn, have not been large, and we quote :—Fours, Rs. 96 13-16 ; Fours-and-a-half, Rs. 105 1-16.

SHARES.—A steady but quiet market has prevailed to-day, and there have been few fluctuations in rates. Bank shares and Land Companies are unchanged, and in Press Companies the only movements are an advance of Rs. 100 in Akbar and Rs. 10 in Albert. Spinning and Weaving Mill shares are quiet, but there is no apparent desire to sell, and with the exception of an advance of Rs. 40 in Albert and a decline of Rs. 10 in Dhurrumsey, there is no alteration to notice.

COTTON has shown a slightly easier feeling, and there has been a disposition to sell New Crop for future delivery at a decline of Re. 1 to Rs. 2 per candy from Saturday's rates, but no transactions have resulted. In Old Cotton some purchases of Old Fully Fair Dholleras are reported at Rs. 186 per candy, half-pressed.

LINSEED is unchanged at Rs. 6-14 to Rs. 7 for ready and Rs. 6-8 per cwt. for April-May delivery.

WHEAT is quiet, and Rs. 3/8 per candy is now the quotation for Soft White.

FREIGHTS show no appreciable change. For Liverpool the only steamer available is the s.s. Brankesome Hall, to arrive for which 35s. is asked for measurement, but shippers do not seem disposed to book at the rate. For London, November shipment can be had at 27s., the quotations for the Mediterranean ports are unaltered.

PIECE-GOODS are quiet, the dealers being now occupied with preparations for the Dewali. The clearances from the bazaar are only about 200 packages per day ; but prices are still well supported as present quotations do not cover Manchester cost.

COALS are firmer, with fewer sellers to arrive at previous rates.

REGIMENTAL ORDERS.

BY LIEUT.-COLONEL COMMANDANT W. S. HEWETT.

Bombay, 25th October, 1880.

1. There will be no company or position drills at Byculla on Wednesday morning, 27th inst.

Members of D and F Companies residing in or near the Fort are requested to attend the parade on the Esplanade at 6-20 a.m. on that day. The Officer Commanding D Company has kindly consented to arrange for the attendance, also of those members of his company residing at Byculla.

2. There will be position drills for D Company at Byculla and also near the Telegraph Quarters in the Fort. Capt. Tennent hopes that every member of his Company will put in the requisite number of drills in order that the entire Company may commence to go through their annual course of musketry at the range at one and the same time. These drills will take place every morning except Wednesdays.

3. No. 1238, Vol. J. Macmillan having joined is taken on the strength of the Corps, and posted to E Company.

OF
BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has appointed them AGENTS for the Sale of his celebrated PEBBLE SPECTACLES and EYE-GLASSES RINGOLLADS &c.

Mr. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes ; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. MENIST'S NON-PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12 lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE and OPERA GLASSES may be used for hours without causing the eyes to ache.

Mr. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

MESSRS. C. MARCKS and Co., for the convenience of clients who may not wish to purchase Mr. MENIST'S GLASSES, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames, and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

NOTICE.

PASSENGERS TRAVELLING on the B. B. & C. I. LINE can obtain copies of the BOMBAY GAZETTE Daily Edition on the same day at the Bulsar Station.

TUESDAY, OCTOBER 26, 1880.

THE Bombay Volunteer Corps has gone through three drill seasons, and is about to enter upon the fourth. We take a great interest in the movement, having been to some extent instrumental in starting it ; and we are glad to see that its career hitherto has been attended with signal success. It has lived down a good deal of absurd opposition, which was, nevertheless, seriously directed against it in the first instance, and it has attained a stable growth which will not be easily destroyed, though the local Cassandra who so confidently predicted its failure at the outset hints now and again vaguely that the end is at hand. For instance, a conviction was croaked forth that the refusal of the present Governor of Bombay to extend to the corps the same hearty support and co-operation which it had received from his predecessor would suffice to destroy all life in it. Had it in its bantling days received such cold official treatment, it might have succumbed, but, happily, we had a Governor at the time the corps was started who took a warm interest in everything calculated to benefit any portion of the community whose interests were entrusted to his care ; and under Sir Richard Temple's fostering protection the bantling had grown into a sturdy gamefowl, able to look after itself, before Sir James Fergusson came to substitute cold indifference for his thorough appreciation and hearty support. Sir James Fergusson, we believe, when respectfully solicited to accept the Honorary Colonelcy of the Volunteer Corps, expressed his opinion that it was not a suitable position for the Governor of the Presidency to hold. This has been variously interpreted : a few people who are always inclined to make the best of everything hold that what the Governor meant was that, there being several corps in the Presidency, it would appear invidious if he accepted the Honorary Colonelcy of one of them ; but the majority credit His Excellency with the feeling that it would be *infra dig.* for "His Excellency the Right Honourable in Council" to accept such a position. It is to be regretted that the Govern[illegible] room for the latter opinion. The annoyance felt will be increased by another and more recent act of the Governor in regard to the volunteers. On its becoming known that the Viceroy would visit Bombay about the time when it had been resolved to hold the annual Volunteer Fancy-dress Ball, a message was despatched to Simla on behalf of the corps, inquiring whether Lord Ripon would do the corps the honour of being present on the occasion : to which an answer was received, containing an assurance that Lord Ripon would be very pleased to attend the ball if the arrangements would permit ; but he could not accept finally, as the arrangements for the Bombay visit had been left in the hands of His Excellency the Governor. But when reference was made to Poona, the reply was that His Excellency the Governor did not think the arrangements would permit of the Viceroy attending the volunteer ball. Sir James Fergusson may not have had any intention, either on this or the preceding occasion to which we have referred, of wounding the *amour propre* of the corps ; there may be circumstances—some occult phenomena—which would render his action perfectly consistent with thorough sympathy with the movement and a desire to promote its welfare ; but it certainly does not look as if His Excellency desired to encourage volunteering. But this is no reason why the corps should incontinently fall to pieces, or, indeed, why its prosperity should be affected in any way. If the volunteers were looked upon with dislike and disfavour by the Government of the country, it would be a different matter ; but, fortunately, the Government of India recognise the value of the volunteer movement, and have announced their willingness to offer certain facilities for the improvement and extension of the system in India.

As we remarked at the outset, our local corps has prospered fairly since its inauguration. A few figures, some culled from the annual reports that have been published, and others kindly supplied us by Captain Stokes, Adjutant of the corps from the returns that have been made up for the report of last season's operations, about to be issued, will show this. There are now on the roll 673 active—or should-be active members, as compared to 586 a year ago, showing a gross increase of 87 men. Of the several companies, A. Company has lost 3 men, gained 12. D. Company has gained 36. E. Company has gained 7. F. Company [illegible] 11, G. Company has lost 11, and H. Company has gained 2. Improvement is shown in other respects also. The corps is at present divided into the following classes :—434 extra-efficients, 91 efficients, and 148 non-efficients. Last year, the proportions were—299 extra-efficients, 141 efficients, and 146 non-efficients. Non-efficients, it may be necessary to explain, are members who have not attended the number of drills prescribed by the Volunteer Regulations. The difference between efficients and extra-efficients is that the former have qualified in respect of the number of drills, but have failed in their annual musketry course to score the 80 points required to secure the extra grant. All volunteers who perform their quota of drill and score 80 points, or over, in the class-firing are extra-efficients. Thus the returns show very little improvement in attendance at drill, the number of non-efficients being nearly the same as in the previous year ; but there has been a marked improvement in the shooting. In fact, the figure of merit was raised from 91·61 for 1878-79 to 113·68, showing an increase of 18·07 in the average points per man. And it will be seen that the advance is really even more marked than those figures show, when we mention that 124 more men went through their course in 1879-80 than in the previous year. Another improvement, and a very gratifying one, is in the funds of the corps, which are now in a flourishing state, there being Rs. 9,800 in hand at the present time, as compared to a balance of Rs. 4,501 in August of last year. The land is the great drag on the finances, about one-fifth of the whole corps only contributing to its support. We think the public might fairly be expected to assist in some something towards the cost of maintaining the band, which by performing at the bunder and bandstand contributes quite as much to the gratification of the public in general as to the actual pronunciation. A weekly contemporary, we notice, teach them to forswear "thin potations,"

TELEGRAMS.

MR. LYALL AND SIR R. SANDEMAN AT KANDAHAR.

(FROM OUR SPECIAL CORRESPONDENT.)

KANDAHAR, OCT. 24.

Mr. Lyall and Sir R. Sandeman await their orders from India. They will probably return to India on the 29th, ascertaining for themselves in the meantime what the actual feeling of the people towards us is.

I believe they were both struck on their entry into Kandahar by the hostile and lowering looks of the assembled population.

THE SOUTHERN AFGHANISTAN FORCE.

The troops in southern Afghanistan have now been completely placed under Bengal.

The three regiments to go down country on the arrival of the Bengal corps will probably be the 4th, 5th, and 8th Regiments. The Poonah Horse will go to the line of communications.

The greatest difficulty is still experienced in collecting forage. Provisions for nearly two months have been accumulated, but not more than twenty days' consumption of forage.

The force for the Helmund will probably start some time next week to establish centres of supply there.

AYOUB KHAN IN HERAT.

Ayoub Khan has thoroughly established himself in Herat. He meditates occupying Nadali on the Helmund, the Belach inhabitants of which have transferred their allegiance to Persia.

KABUL AND TURKISTAN.

The Kabul road is closed, and it is said that disturbances have commenced in Turkistan.

The Ameer's authority does not extend below Ghuzni.

THE HAZARAS AND GHILZAIS.

The Hazaras and Ghilzais are supposed to have come to their quarrel.

GENERAL BURROWS'

General Burrows' despatch on the battle of Maiwand has caused great indignation among the officers who were present at that unfortunate affair; and I hear that a correspondence on the subject has already commenced. He only mentions his orderly officer, Captain Slade, imputing that the others did not do their duty; in fact, he casts the blame of his defeat upon the troops. But the one thing clear about the fight is that the brigade was disgracefully handled, and General Burrows, by paying no tribute in his despatch to the gallant behaviour of the Grenadiers, who lost one-third of their number before the retreat began, and who for several hour remained steady under as heavy a fire as ever troops were subjected to, has failed in his duty to the Army to which he belongs.

MR. PARNELL AT GALWAY.

Mr. Parnell, in a speech delivered at Galway yesterday said that Mr. Foster and the House of Lords, by the latter's recent rejection of Irish bills, must be held responsible for the late assassinations in Ireland. Mr. Parnell also said that the sole remedy for the disturbed condition of Ireland was the concession of autonomy to that country.

GALLE, OCT. 25, 15-50.

French Mail steamer Irrawady, from China, arrived.

THE Governor, Sir James Fergusson, and the Commander-in-Chief, General Warre, will both arrive in Bombay on Thursday to meet General Sir Frederick Roberts, who is due here the same day from Allahabad *en route* to England. The Governor is at present at Mahableshwar—where, by the way, it has not been altogether pleasant lately, the recent rains having extended their influence to that locality sufficiently to envelop the hill in a mist by no means conducive to unmixed comfort; and he and his staff travel down on Wednesday to Maharpral, whence they will come on to Bombay by water, arriving there probably very early on Thursday morning. General Warre will come down from Khandalla, where he has been staying during the past week, accompanied by Major Rivett-Carnac, Military Secretary, and Captain Wyvard, Aide-de-Camp. General Roberts's suite by next Saturday's mail-steamer and unless he should find any work to detain him in Bombay, Sir James Fergusson, we understand, contemplates returning the same evening to Mahableshwar.

We are glad to hear that a subscription list has at length been set on foot in Bombay in aid of the poor widows and orphans who have suffered by the late terrible disaster at Saint Tan. Messrs. R. and A. Hormarjee have, with their usual liberality, headed the list with a donation of Rs. 1,000.

THE lease of the Freemasons' Hall, Nesbit Lane, Byculla, has been renewed for another term of two years.

THE Akola (Berar) races commence on the 26th instant, when a gala week is anticipated.

IT is reported that the 9th Lancers are to be relieved at Kandahar by the 13th Hussars, who will leave India about the middle of November.

As we anticipated, Captain Selfe, R. A., officiating Commandant, No. 2 Field Battery, H. C., Ellichpore, has been appointed to the permanent command of No. 4 Field Battery, H. C., at Aurangabad, *vice* Major H. C. Seton, R. A., Bombay S. C., who died on his voyage to Europe on the 11th ultimo. Within three months the H. C. has lost two officers—Major Seton and Captain Maingay, R. A.

MAJOR HAVELOCK has been appointed permanent Commandant of the 1st Infantry, H. C., at Lingasoogar, *vice* Colonel Lilly. A correspondent remarks:—"A more flagrant piece of jobbery never was perpetrated than in thus overlooking the claims of Lieutenant Colonels Way and Justice. Comment is needless."

CALCUTTA boasts of a lady dentist, who is connected with the firm of Messrs. Ashby and Co., and undertakes to attend zenanas on order.

IT is stated that the directors of the Empress Cotton-Mills at Nagpur have resolved to work the mills at night in addition to the daily work, and that they have, with that view, ordered one an electric light apparatus at a cost of Rs. 60,000.

THE mortuary register of the Hydrabad Assigned Districts during the month of July last shows 3,183 deaths, out of which 1,739 were caused by fever. This disease seems to baffle the skill of the doctors. There were 43 deaths from snake-bites and wild beasts. There is no reward offered for killing snakes.

Two men who were convicted of having killed the son of a talookdar, who was studying at the Sadri school, particulars of which occurrence were given in these columns some weeks back, were tried before the Political Agent of Rewa Kanta, and sentenced by him to be hanged. The correspondent of a vernacular paper, who reports this, believes that the conclusion of the trial will be re-assuring to the chiefs and talookdars of the province, who had grown apprehensive of the safety of their sons when required to be sent from their homes for the purposes of study.

THE dowager-queen of Rao Pragmaljee of Kutch is, according to the *Rast Goftar*, preparing an appeal, and the Kutchees residing at Bombay are preparing to hold a large meeting here to complain against the action of the Bombay Government in connection with the regency of the State.

HIS HIGHNESS THE MAHARANA OF ODEYPORE has expressed his intention to visit His Excellency the Viceroy during the ensuing cold-weather, and is expected in Calcutta by the latter end of December.

THE *Indian Daily News* has a good suggestion:—"All our readers have probably heard of the loss of Messrs. Apear & Co.'s ss. Thunder, with no end of treasure on board. Now, if Madame Blavatsky will only discover the Thunder, and operate on the treasure after the manner illustrated by Mrs. Hodge's brooch, we do think that those concerned would faithfully go halves in the result."

GENERAL LUMB has returned from Simla to Allahabad, and leaves shortly for Kandahar. He went up to Simla from Mussoorie to consult with the Viceroy, the Commander-in-Chief, and General Roberts as to the course he should pursue in Southern Afghanistan. A wound which the General received in the Crimea has been giving him some considerable trouble lately, but in spite of his suffering, a local paper announces, he is resolved upon taking up the important command for which he has been selected.

THE Lahore paper regrets to learn that cholera seems to be slowly working its way down-country from Peshawur. A European guard of the P. N. S. Railway died of cholera at Rawul Pindi last week; but at present no fresh cases have been reported among the European residents there, though there have been some among the troops.

BETWEEN the 13th and 20th instant, forty-four natives and thirteen Europeans died in Lucknow from cholera.

BRIGADIER-GENERAL NUTTALL and Major Burnett were to leave Kandahar for India on the 16th instant.

THE latest official report of the state of the weather and prospects of the crops in the North-West Provinces, for the week ended the 20th instant, states:—There has been general rain in Benares, and some showers in Fyzabad. Rain is also believed to have fallen on the 19th in Partabgarh, where it was urgently needed, both for the rabi sowings and the kharif standing crops. Rain is badly wanted in Cawnpore, Jhansi, Agra, Lucknow, Sitapur, and Rae Bareli, otherwise the kharif will be poor, and much of the rabi area unsown. In Cawnpore the kharif has been entirely lost. In Allahabad, Aligarh, and Meerut, the crops have been below the average, but the condition of the people is fair. In Gorakhpur, Benares, Saharanpore, [illegible] and Bareilly prospects are good; but [illegible] reported. [illegible] shed, Jhansi, Banda, and Partabgarh. The harvests are on the whole well supplied, but there is some distress among the poorer classes of Cawnpore, Lucknow, and Rae Bareli. With the exception of some cholera in Bareilly and fever in Moradabad, the health of the people is generally good.

THE Hindus of Madras, we are told, do not intend that their Mahomedan *confrères* should out-do them on the occasion of the approaching departure of His Grace the Duke of Buckingham from the Presidency. His Grace has accepted an entertainment from the Mahomedan community; the Duke and the Ladies Grenville will be present at the ball to be given in their honour at the Banqueting Hall on the 15th proximo by the members of "Madras society;" and the Hindu community in Madras also wish to entertain the Duke before he leaves Madras.

SAYS the *Englishman*:—It is rumoured, and the rumour is not without some foundation, we believe, that our late enemies, the Ameers, are strutting about their villages, openly boasting that it is their intention to pay our frontier another visit, December being the month talked of for the undertaking. We give the rumour for what it is worth; but we are able to announce that the authorities, feeling that prevention is better than cure, have not been idle, and since the last fatal raid made on the Balladhun estate have bestirred themselves in fortifying the frontier for the protection of the valuable property there situated.

THERE has been very heavy rain lately at Arcot and Arnee. The Arnee river is flooded; and the *Madras Mail* relates that while Dr. Bradshaw, Inspector of Schools, was crossing it in a *jutka* in the middle of Wednesday night, he was nearly carried away by freshes. Some natives standing on the bank, waiting for the flood to go down, were afraid to give help, the current was so great. Fortunately there was some moonlight, and the driver at length was able to extricate the bandy from its dangerous position.

MR. LINDAU, the bandmaster of the Viceroy's band, brought an action last week at Simla against the native landlords of the house in which the band is located at that station. He alleged that on the 15th May last he was proceeding on duty to the quarters of the bandsmen to give certain official instructions to the Sergeant-Major of the band, who lives in defendants' premises. In crossing the verandah a decayed board of the flooring suddenly gave way under his feet, thereby causing him to fall, and to receive, in falling, a contusion of the left leg, resulting in a large abscess, attended with extensive erysipelas. He was in consequence for more than a month ill, and in great pain and suffering, unable to attend to his business. He claimed Rs. 1,000 damages. The Judicial Assistant [illegible] entitled to receive from defendants, and of opinion that the amount claimed, Rs. 1,000 is excessive. Plaintiff, no doubt, suffered great personal inconvenience, as well as mental and bodily pain, by the accident; but in a pecuniary sense he did not suffer at all, as he continued to receive his salary from Government during the period of his illness. He [illegible] that Rs. 250 will compensate plaintiff for the injuries he has received, and pass a decree accordingly for that amount, with costs in proportion.

A SUPPLEMENT to the *Calcutta Gazette* contains a short report on the earnings and expenses of the Bengal provincial railways for the half-year ended the 30th June last. The provincial railways dealt with are the Northern Bengal, the Tirhut, the Patna and Gya, the Calcutta and South-Eastern, and the Nalhati lines. From the report we see that "the total revenue receipts from these lines during the half-year under review amounted to Rs. 14,12,906, against Rs. 10,45,047 during the first half of 1879, or an increase of 35·20 per cent. It must, however, be remembered that during the period under review there was a greater length of railway open, *viz.*, the Teesta extension of the Northern Bengal State Railway, 11 miles opened on 1st June, 1879, and the Patna and Gya State Railway, which was not properly opened till June 1879. Still, however, on the whole, the increase in the receipts is satisfactory."

THE Municipal Commissioners of Penang, Straits Settlements, have aroused a storm of indignation amongst the numerous Chinese inhabitants of the town by what certainly reads as a most injudicious proceeding, and it is stated that those aggrieved intend to bring an action for ten thousand dollars against the Municipality. A Municipal road, it appears, passes through the Chinese burial-ground, and on either side a broad ditch separates the graveyard from the high-road. The road at one point was thought to be too narrow, and orders were given to have it widened, which were faithfully carried out in the following manner; a certain portion of earth was duly cut off the burial-ground sides of the drains and shovelled on to the banks next the road. Bodies had been interred close up to the ditch; so the man who did the work actually cut through graves, and while on one side the bodies of those buried in them have been deprived of their lower extremities, on the other, decapitated trunks show themselves. The bones and skulls of those exhumed were strewed broad-cast in the ditch, and the head-stones marking the graves were promiscuously thrown about. When the matter was brought to the attention of the Municipal officials, a large hole was dug, and all the bones, skulls, etc., were collected, and summarily buried in it!

LIU TA JEN, one of the Chinese ambassadors who lately visited England, kept a diary, in which he recorded his impressions. A translation, extracts from his [illegible] in the *Nineteenth Century* for October. One matter which has attracted the Chinese statesman's attention is the manner in which England holds her distant possessions. He considers, for instance, that there are not enough troops stationed in the Straits Settlements. The English, he says, have trading stations all over the world, but neglecting to the scheme of large garrisons—we have hit on the expedient of telegraph lines and steam vessels. But these makeshifts will not always serve. "Russia wants to extend her sea-board to the south, at the expense of Turkey; and if the latter power fails, the Russians will come down the Red Sea like water from an up-turned jar, and England will not only have to watch over the safety of India, but to maintain large military garrisons at Aden and all the stations on the south-east."

SOME humorous instances are given in *Chambers Journal* of mistakes in telegraphing. It would seem that as absurd and puzzling mistakes are made occasionally in Europe as are constantly labour under in India. *Chambers* tells us:—

When the news came of the revolution in Turkey and the deposition of Abdul Aziz, Queen Victoria, it is said, lost no time in intervening on his behalf by telegraphing to Constantinople, and expressing her hope that the ex-Sultan would not be subjected to any violence or ill-treatment. "Soignez le bien" (take good care of him), said Her Majesty; but the cruel telegraph made her say "Saignez le bien" (bleed him well); and how they bled him all the world knows. The story is not impossible. In his last annual report the Postmaster-General owns that a poor woman, telegraphing to a relative, "Mary is bad," had her message rendered "Mary is dead;" and that a Welsh preacher's telegram was put into their friends of their safety by the assurance that they had "arrived all right," scandalised the anxious ones with the announcement. "We have arrived all right." But many jokes are perpetrated by the wire without receiving official recognition. A noble lord, as proud and fond as a man should be of his beautiful young wife, was just about rising to speak in a debate, when a telegram was put into his hands. He read it, left the House, jumped into a cab, drove to Charing Cross, and took the train for Dover. Next day he returned home, rushed into his wife's room, and finding her there, upbraided the astonished lady in no measured terms. She protested her ignorance of having done anything to offend him. "Then what did you mean by your telegram?" he asked. "Mean? What I said, of course. What are you talking about?" "Read it yourself," said he. She read: "I flee with Mr. —— to Dover straight. Pray for me." For the moment words would not come; then, after a merry fit of laughter, the suspected wife quietly remarked: "Oh, those dreadful telegraph people! No wonder you are out of your mind, dear. I telegraphed simply: 'I go with Mrs. —— in Dover Street. Stay for me.'" One evening, when the late Earl Russell was the Minister in attendance at Balmoral, a little old man, buried in a great-coat, handed a telegram, addressed to one of the Ministers in London, to the telegraph clerk in one of the stations on the Deeside Railway. The clerk, after glancing at the message, threw it contemptuously back with: "Put your name to it. It's a pity your master does not know how to send a telegram." The name was added. "Why, you can't write!" exclaimed the clerk, after vainly trying to make something of the signature. "What's yourname?" "My name?" said the messenger—"my name is John Russell." That clerk was transferred to another office before many days passed.

PRINCE'S DOCK.—The s. s. Cicero entered the dock on Sunday, and the I. G. steamer Tenasserim entered the dock yesterday.

RAIN AT BROACH.—A correspondent writes from Broach, 24th October:—Last night, from six till twelve, it rained in torrents. There was continual thunder and lightning.

POSTAL NOTICE.—An error occurred in the tariff schedule which we published yesterday. The current tariff rate for foreign money-orders is 1s. 7½d., and not 10s. 7½, as was therein stated.

RAIN AT AURUNGABAD.—Rain still continues at Aurangabad. There was over 1·25 inches gauged on the 23rd instant, and prospect of more. Owing to the bad state of the Nandgaon road, the mail arrived at 8 p. m. instead of at 1 p. m.

OOMRAOTI STATE RAILWAY.—The total earnings on this line for the month of August were Rs. 1,205, being an increase of Rs. 12 over the corresponding month last year. There was a decrease of 181·38 tons of cotton in August last, while grain and pulse increased 256·12 tons.

PARSEE RELIGIOUS CEREMONY.—At the Parsee Agiary in Trinity Street, Dhobi Talao, a religious ceremony of importance, called the *Adaryan*, was performed on Sunday last, before a large number of priests and laymen, the expenses being paid from the general subscriptions of the community.

CRUELTY TO ANIMALS.—The following is a summary of cases prosecuted by the agents of the S. P. C. A. during the week ending the 23rd instant:—Horses, 5 lame, 1 broken knees; bullocks, 11 lame, 18 sore necks, 2 emaciated, and 2 unshod. Total number of cases, 39; amount of fines, Rs. 84.

NIZAM'S STATE RAILWAY.—In the month of July last the [illegible] Rs. [illegible] average rate of Rs. 224-12-10 per mile per month. The increase has been in grain, pulses, seeds, and piece-goods.

THEFT.—Shaik Mahomed Goolam Hoosein was yesterday convicted by Mr. Dosabhoy Framjee of stealing a watch, some copper vessels, and a quantity of wearing apparel, &c., of the collective value of Rs. 59·8, the property of Goolam Hoosein Goolam Mahomed. He was sentenced to four months' rigorous imprisonment.

FALL FROM A TODDY-TREE.—Wittoo Vishram, a toddy-drawer, while in the act of drawing toddy from a tree at Lower Mahim on Sunday last, missed his hold and fell to the ground, a height of about thirty-five feet, and was seriously injured. He was at once removed to the J. J. Hospital, where he is lying in a precarious state.

AN OLD OFFENDER.—Curreem Assumbhoy was yesterday convicted by Mr. Dosabhoy Framjee of stealing a waistcoat from the shop of Siddeek Hajee Ibrahim, at the Sonapore Bazar, on the evening previous. Being an old offender, he was sentenced to six months' rigorous imprisonment, and further to receive twenty lashes with a cat-o-nine-tails.

RAINFALL ON THE BARODA LINE.—We have been favoured with a return of the rainfall on the line intersected by the B. B. and C. I. Railway, by the Agent, from which it appears that up to 22nd instant 75·24 inches of rain fell at Panjoo, 75·35 inches at Vaitarna, 76·80 inches at Palghur, 56·24 inches at Gholwad, 70·08 inches at Bulsar, and 35·86 inches at Surat.

GAMBLERS.—Sunker Wittoo and sixteen others were yesterday charged, at the instance of Mr. Inspector Ralph, before Mr. Dosabhoy Framjee, with being found gaming in a common gaming-house in Girgaum Back Road. They were all convicted. Prisoner No. 1 and another were fined Rs. 25 each, and the remainder were fined Rs. 10 each.

SUICIDE.—A Coroner's inquest was held yesterday at the lines of H. M.'s 21st Regiment N. I., on view of the body of a Hindoo woman, aged about 17 years, named Dhurmee, the wife of a private belonging to that corps. Deceased, it appears, during the absence of her husband, who was on guard at one of the small entrances to the lines, loaded his rifle with a ball-cartridge and shot herself through the neck, which caused instantaneous death. No reasons appear to be assigned for the act. Deceased is said to have been married about five months ago, and from accounts given by the neighbours, she and her husband lived on very amicable terms. The verdict was, "That the death of the deceased was caused by her having committed suicide by shooting herself with [illegible]."

THEFT AT THE NEW IMAUMBARRA.—Mahomed Hussain Rajah, a shoeistadar in the service of the Nizam's Government at Hyderabad, at present residing at the New Imaumbarra, reported to the police on Sunday last that a theft had been committed on the night previous from his residence of sundry articles, consisting of a travelling-bag containing a double-barreled pistol and a quantity of wearing apparel, and two courier-bags containing three silver lever watches, with gold chains attached, of the aggregate value of Rs. 326-8. Mr. Constable Collett, on searching the premises, discovered a shoe lying there, which was said to be one similar to that worn by one Mirza Janoobhoy, who was subsequently arrested near Pydownee; and on searching his house at Pydownee Second Street, the whole of the stolen property was found locked up in his box. The prisoner, Mirza Janoobhoy, when arrested, was found wearing a new pair of shoes, which articles were also discovered to have been stolen from a shop-keeper in that locality immediately after he had committed the theft at the New Imaumbarra. The prisoner was yesterday placed before Mr. Nana Morojee on two separate charges of theft. He was convicted on both the charges, and was sentenced to an accumulated term of ten months' rigorous imprisonment.

EPISCOPAL.—The *Indian Church Gazette* notes that on September 2nd about fifty persons, including soldiers from the garrison at Colaba and railway *employés*, belonging to the congregation of the mission at Parell, received "the laying on of hands." On September 10th a confirmation was held in S. Peter's Church, Mazagon, and another in Holy Trinity Church, Sonapore (S. P. G.) early on October. At the confirmation which took place in the Cathedral the Bishop was attended by a chaplain bearing his pastoral staff, which his Lordship himself held when giving the benediction. White stoles were also used, and a white altar frontal.

IMPROPER PRIVILEGES.—A young Mahomedan named Russool Khan, who was formerly in the Poona Police, but now without employment, was charged before Azum Bhugwan Nursew Jog, under section 171 of the I. P. Code, with wearing the garb of a police officer with intent to defraud. The particulars of the case are as follows:—The prisoner pretended to be a policeman, donned the police uniform and belt, and seizing a sheep belonging to a Mahomedan woman residing in his neighbourhood, compelled her to pay 4 annas in order that the sheep should not be lodged in the cattle-pound. The evidence was clear, and it appeared the young vagabond had been in the habit of carrying on this nefarious trade ever since his dismissal from the police force. He was found guilty, and sentenced to suffer rigorous imprisonment for three months.—*Deccan Herald.*

THE BOMBAY MILITARY RELIEF FUND.—There was a meeting of the Poona branch committee in connection with this fund last Friday morning at the office of the Commissioner, N. D., Mr. Lestock Reid presiding. It was reported that up to the morning of the 22nd instant the subscriptions amounted to Rs. 17,198-11-11, out of which Rs. 16,320-11-11 had been collected, and the amount remaining to be collected amounted to Rs. 878. A contingent bill for expenses incurred by the secretaries, amounting to Rs. 110-11, was duly passed. It was decided to send a circular note to all persons who are able to subscribe, but who have not yet subscribed, soliciting their assistance in support of the fund. It was intimated that the subscriptions from Mhow, amounting to Rs. 1,700, were sent direct to Bombay, and are not embodied in the Poona subscription list. The meeting was a djourned *sine die.*—*Id.*

EXTENSIVE THEFT OF ORNAMENTS AT POONA.—About a month ago we said that a theft of gold ornaments took place in the house of a pleader, Mr. Bulwant Wamon Cholkur, in Boodwar Peth, in the city of Poona. The accused, Vishnoo Trimbuck Mawal, who has been under trial from the 1st proximo, has stated that he found the ornaments alleged to have been stolen, and many more, underneath the ground of his fallen house at Kurroos, in Khed talooka. The accused also stated before the Deputy Commissioner of Nursingpoor that the *Gôph* (neck ornament) which was found with him was given by the complainant's wife to him, to be given to the complainant's son at Nursingpoor; but these statements the accused has denied before Mr. Plunkett, the City Magistrate, by whom he is now being tried, and now alleges that the property belong to him. The [illegible] which were pledged traced some other [illegible], which were produced before Mr. Plunkett, and identified by Gunputrao Sathe. The value of the stolen ornaments is fixed at about Rs. 3,500, and those traced by the police at about Rs. 1,000. The case is still pending before the City Magistrate, and is not likely to be concluded for some days to come.—*Id.*

BOMBAY PORT TRUST.

EXCERPTS from the proceedings of a meeting of the Trustees of the Port of Bombay, held on the 21st instant.

Read letter from the Resident Engineer, dated 7th October, forwarding a plan of the Santa Cruz property, showing the adjacent land and roads. He states that the proposed new road being made by the Municipality, where opposite the Trustees' land, is raised above the level from 6 to 10 feet, and that when it is finished there will be difficulty in draining the Santa Cruz land. Before using this land he states that it will be necessary to raise it to the level of the road or otherwise make it convenient of approach. He further states that about 120 square yards of the Trustees' land will be required for the Municipal road, and that the rent capitalized at 25 years' purchase should be taken to be Rs. 17 per square yard. Read minutes of members of Land Committee. Resolution.—The Trustees' solicitor should be requested to write a letter to the Municipality, holding them liable for any damage done to the Santa Cruz property by the road now being constructed.

Read letter from Mr. Vurjeevandass Madohwdass, dated 12th October, calling attention to the unsightly wall and waste land in front of his residence at the corner of the boulevard and Hornby Row, opposite the European General Hospital, and suggesting that the land be properly reclaimed and made a part of the road, and that the wall be removed. Resolution.—Subject to the sanction of Government, the land in question should be offered to the Municipality on condition that it is added to the road.

Read letter from the Traffic Manager, dated 6th October, asking sanction to the entertainment of the following temporary establishment for working the joint Cotton Green:—3 clerks, on Rs. 30 per mensem each; 5 peons on Rs. 10 per mensem each. Also asking sanction to the payment of Rs. 15 a month as conveyance allowance to Mr. Windsor, Inspector, who has to visit the various Cotton Greens several times a day. Read minutes of members of Establishment Committee. Resolution.—The establishment asked for is sanctioned as is the conveyance allowance proposed to be paid to Mr. Windsor, Rs. 30 per mensem of the Inspector's salary should be charged to the joint account.

Read letter from the Traffic Manager, dated 17th September, stating that the records of his department are kept in one of the godowns of the Iron Bazaar, and represents that as rats, white ants, and damp have damaged a number of books, shelves be put up to keep them out of danger as much as possible. Read minute of Resident Engineer, dated 5th October, estimating the cost of the necessary shelves at Rs. 313, and recommending that they be put up in one of the watch houses at the Fish Markets, as there will be less chance of fire there than on any other portion of the Estate. Resolution.—The estimate of Rs. 313 is sanctioned as a charge against revenue. The book cases should be placed in the watch-house at Ryan Markets.

Read Government resolution No. 606, dated 12th October, acknowledging receipt of the Trustees' resolution, conveying their sense of the loss sustained by the death of their Chairman, the late Mr. Dempsey. Read letter from H. E. intimating that H. E. the Governor received the report of his death with great regret, and he feels that Government, as well as the Trustees of the Port, have reason to deplore his sudden removal from the post he was filling so usefully. The resolution to be recorded.

Read letter from Superintendent, dated 5th October, [illegible] Trustees' machinery, he has authority to consider [illegible] days as one day for the purposes of the [illegible] members of Dock Committee. Resolution.—The day that a vessel enters and the day she leaves the dock should be counted as one day as has hitherto been done, in other cases part of a day should be charged as a whole day.

Read letter from the Superintendent, Prince's Dock, dated — September, recommending that dock fees be recovered on the gross weight of packages, and not as heretofore on the weight received in Customs deveture which is the net weight. Read minutes of members of Dock Committee. Resolution.—The custom hitherto followed should be continued.

Read letter from Mr. G. A. Kittredge, dated 18th October, intimating his intention to propose [illegible] That no combustible goods be stored in the godowns in course of building the dock, and that any now there be removed. 2. That warrants be issued for goods stored in the Hall, Station in the Fort. 3. That the Port Officer, Engineer, and Dock Superintendent be asked to arrange rules, and suggest some scheme for the training of [illegible] engines and hose carriages in the dock in case of fire. Resolution.—Consideration of the first proposal is postponed to allow a letter from the consulting Engineer's report where combustible goods can be stored. The other proposals are agreed to.

Read letter from the Assistant Superintendent, Marine Survey, dated 19th October, requesting permission to erect free of rent a small mat house, about 18 feet by 12, on Apollo Bunder, behind the Post Office and Custom House, for the use of the men of the Marine Survey. Resolution.—The Trustees cannot allow a chappar to be put up at the site referred to, but they may be part up, or they may erect a mat house on Apollo Reclamation.

Read memo. from the Traffic Manager, dated 6th October, forwarding a letter from the custodian of Cotton Green Magazine, requesting that a wooden floor be laid in his house, as his family has suffered much from sickness because of the damp, and also asking permission to cut down some of the trees close to his house which do not bear fruit. The Traffic Manager recommends that the request be complied with. Read memo. by Resident Engineer, dated 13th October, estimating the cost of laying a floor at Rs. 218. Resolution.—The flooring should be laid at an estimated cost of Rs. 218, the amount to be charged to revenue. The surrounding bushes may be cut down.

Read memo. from the Traffic Manager, dated 14th September, forwarding an application from Sewjee Ramjee, for a lease for 50 years, of a site close to Musjid Bridge, measuring about 600 square yards, on which part of a house belonging to the Trustees now stands, and offering Rs. 800 for the materials of the house. The rent offered for the ground is Re. 1 per square yard per annum for the first 20 years, and Re. 1½ per square yard per annum for remaining 30 years. Read report by Resident Engineer, dated 11th October, estimating the value of the materials of the house at Rs. 1,500, and recommending that instead of selling them the house be pulled down and re-erected at another site further south, as shown on a plan, and he states the cost at Rs. 5,332. Read minutes of members of Land Committee. Resolution.—The application should be refused.

The following were amongst the papers laid on the table:—

Government resolution No. 607, dated 12th October, intimating that His Excellency the Governor in Council has appointed Major G. L. C. Merewether, R. E., to be chairman of the Board of Trustees, *vice* Colonel Ponsonby Cox, R. E., deceased, the appointment to have effect from the date of Major Merewether assuming charge.

Government resolution No. 5,353, dated 11th October, authorizing the importation by Messrs. Macaulay and Co., of 40,000 lbs. dynamite with detonators to be stored at Anjop Hill.

Pilotage statement to week ending 19th instant:—

SMOKE NUISANCE.—Energetic steps are being taken by the Magistrate of Howrah against the nuisance caused by the vast volumes of smoke emitted from the chimneys of the many mills on the Howrah side of the river. The engineers in charge of these concerns urge in extenuation that the smoke-consuming devices adopted with success in England are found to fail in this country owing to the inferior quality of the coal.—*Englishman.*

SILVERING COPPER MONEY.—A native, named Jogeshur Ojhar, the a sepoy of the 18th Regiment, N. I., was charged on Thursday before Baboo Rungolal Banerjee, the City Magistrate of Howrah, with having last Monday on the Chandnarry-bridge attempted to cheat a native sweetmeat-seller by giving him a half piece which was quicksilvered over, and which he intended to pass off for a Rupee piece. The charge having been satisfactorily proved, the prisoner was convicted and sentenced to one year's rigorous imprisonment, under section 249 of the Indian Penal Code.—*Statesman.*

SUPPOSED MURDER.—A girl, named Promoda, daughter of Parbati Barah, of Batore, aged 3½ years, has been missing since the 30th September, 1880; she had some silver ornaments, valued at Rs. 30, in her person. A very careful search was made by the parents and the police, but no trace of the child could be found. On enquiry made by the Shibpur and Battore police, there has been found in a jungle, growing upon Itabodhee Sirdar's garden close to their house one skull, one ulna, one rib, and a lock of hair; the latter was tied with tape and hair cord. The last three things have been identified by Promode's parents to have been worn by her. The District Superintendent of Police sent the skull over to the Civil Surgeon of Howrah for examination. The bones being examined by the Civil Surgeon of Howrah, were pronounced to be partly those of a adult an partly of a girl of about twelve or thirteen years of age. The District Superintendent of Police, Mr. Wilkins, accompanied by Mr. Samuels the Chief Inspector of Police, with the Shibpur an Battore sub-inspectors went to the spot on Sunday last, but no discoveries had taken place, but no one whatever has yet been found. The District Superintendent of Police and Mr. Samuels searched the jungle and the tank attached to it for the discovery of the girl, but to no effect. The matter is still under police investigation.—*Englishman.*

MADRAS.

THE RUMPA REBELLION.—We learn that His Grace the Governor recently telegraphed to the authorities at Rumpa, enquiring what steps had been taken for the apprehension of the Muttadar of Nedlur, as while that rebel leader was at large, the settlement of the Mutta of Nedlur would be impracticable. Arrangements were at once made for the arrest of the Muttadar, who is said to be one of the first who rebelled; and his Grace has been informed by telegraph that three police inspectors and a police officer have been despatched to effect his capture.—*Mail.*

COOPER'S HILL WALLAHS.—The undermentioned assistant engineers, appointed by the Secretary of State for India in Council from the Royal Indian Engineering College, who have gone through their practical training in England, are posted to Madras:—

Mr. A. R. Boyle, Assist. Engineer,		2nd	Grade.
Mr. A. M. Hayes	do.	2nd	"
Mr. E. H. Hanson	do.	2nd	"
Mr. R. H. Dorman	do.	3rd	"

The following students of the College, who have been appointed Assistant Engineers in the grades specified, are posted to Madras for the purpose of undergoing a course of practical training for one year:—

Mr. H. E. Clerk, Assist. Engineer,		2nd	Grade.
Mr. S. D. Pears	do.	2nd	"

TROOPS RETURNED FROM KABUL.—The 1st Regiment Madras N. I. which left Secunderabad in October last year for active service in Afghanistan, returned to the station by two special trains yesterday morning. On arriving at the platform they were received by a Guard of Honour from the 38th Regiment, M. N. I. General Macintire, Commanding the Division and Staff, were also present to welcome home the returning warriors. After an interval of 15 minutes, the "fall in" was sounded, and the men with hearty cheers of "hurrah" were marched to their barracks, the bands of the 9th, 28th, and 38th Regiments playing some stirring military marches before them. After the "break off" the men were dismissed to their respective [illegible], where they were gladly welcomed by their families and friends who had long been [illegible] for their arrival.—*Deccan Times.*

Parkes, in his report to the Secretary of State, on the progress of the Harbour Works in Madras, for the quarter ending 30th June last, says:—"The most important feature in the [illegible] is, Mr. Carmichael's opinion, the result of the changes of the coast line under the influence of the present monsoon are curious and interesting. I called attention a year ago to the [illegible] accumulation of sand to the south of the harbour, was not immediately contiguous to the south pier, but had its maximum about 600 feet to the southward. This year there is no advance close to the pier, but the maximum is 800 to 1,000 feet to the southward. This is, no doubt, to be attributed to the

when he has abandoned all belief in the supernatural. It is secularism in its best working form, ignoring all but what is evident, but acknowledge—rather foolishly from an intellectual point of view—an impulse indistinguishable from conscience, and governed by "duty" in a degree which most secularists would not speculatively allow. It is a fine form of negation, free from the rancour which underlies much of ordinary Atheism, and devoid of that tendency to delight in artificial superstition which we, at least, see in the teaching of the Comtists. It is a faith in consonance with many English tendencies, and with the English defect of imagination, and the Archbishop of Canterbury may rely upon it that it is much more widely held and is indefinitely more dangerous than Theism, whether Theism is the cold creed he conceives it to be, or the domineering and relentless faith which, as we hold, it would speedily become.

And yet what a dreary creed it is, this of Mr. Whitworth's, and what a useless one! The man who believes it stands to himself visibly alone in the universe, unhelped, nay, indeed, unprotected, to do badly what he finds to do day by day for a few years, and then die like a flower, all that he has done to make himself nobler or greater, or more competent being useless, five-sixth of it totally wasted, being within himself and confined to himself, and the remainder being useful only to a wretched race who never do and never will do anything perfectly, who cannot even be happy as some creatures can, and who, when the world has done cooling, will pass away as forgotten as the ephemerides of a summer day. Space has unclosed itself for humanity and closed again, and there is space once more. He has not even the pleasure of the highest intellectual interests, for it is waste and folly for him to study things not visible, or speculate on anything outside the material world around him; while he has, nevertheless, bound himself by a self-derived obligation to do he cannot define what. His creed is that he is bound by duty to do what duty dictates. It is at these two points that the reasoning powers of men like Mr. Whitworth always appear to us to give way. He rejects Christ as a gradually accreted myth—for that is what he means, though he wisely avoids those fine words—and God and futurity as baseless assumptions, and then makes for himself the colossal assumptions that he is to do his duty, and that he knows what it is. Supposing he knows it, why is he to do it? Mr. Whitworth says he is working at his business out there in Bombay, and we have no doubt, on the evidence of his published thoughts, that he works to purpose, though it is hot, and that his bricks, if he makes bricks, stand the rain; but what does he do it for? Where is the evidence on his theory that he is not a fool for working himself out, and doing Manchester strenuously, when [illegible] instead? [illegible] strange superstition it is that binds him—him, a mere animal, who must perish directly to call whether his house or bridge is built [illegible] when it would be pleasanter to be careless about it! He says explicitly that he is not to aim at [illegible] draw nearer to God, and not to imitate Christ; not to continue after he is dead; and why, then, is he not to do as he likes? It is a pure assumption that he owes friendly duty to his kind, and an assumption not fortified by either analogy or reason, most things having for their object destruction, and the most rational theory of life being that the harder life is, and the less help anybody gives anybody else, the more certain is the survival of the fittest. His duty to build good drains! Why, if there were none, a race would arise impervious to miasma, as is, we believe, to a strange degree the case with European Jews, bred for a thousand years in the filth of the Ghettos. Mr. Whitworth in building drains is only impeding a natural process, which would do its work much better and more completely than he can. It is a mere superstition, on his theory, that enthronisation of Duty as Deity, and as basis for any other. It is no more an intuition than the sense of the supernatural is an intuition, and if it were, why is he to obey his intuitions? There is no reason, without God or a future, except that he wishes to, and it must be remembered that the immense majority, say all Chinamen, will not wish. For those who do not wish, where is the impelling power, when they once recognise that this planet is certain to cease to be a human abode? And then, as to the line of duty, Mr. Whitworth assumes that he knows it; but if he strips his mind as clear of his social teaching as he has done of his religious teaching, he will find himself not quite so confident. His duty, as he conceives it, is to obey the Christian ethics without the Christian faith, but is not that a superstition, too? Is it not at least as probable that the first duty of man to man is to [illegible] a little more competent, and, as he must perish so quickly, to lose no time about it. Could duty to man be better done than by compelling all Chinamen by bayonet and shell, to bring up their children in all secular knowledge, or in killing down half of that overnumerous people, till there was room for the remainder to be intelligent and happy. Their great powers are all lost in the endless struggle to keep alive, which Nature corrects by gigantic famines. Why should not man help Nature by slaughter, as well as by teaching? He does not hesitate to thin-out deer; and wherein do men, on the theory, differ from deer? Every body is reading this week of the glories of nature in Brazil, and of the marvellous country owned by Brazilians of all colours, and of the way they waste it. Why is it not the duty of Germans to kill out the Brazilians, who have failed and will fail, and themselves fill up that magnificent division of the world? That would appreciably add to the happiness of humanity, and its prospects for the future. One of the best men we ever knew, who had lost his faith as Mr. Whitworth has, and held exactly his creed, always maintained, in no spirit of jesting, that the most neglected duty of the progressive races of men was the extermination of the non-progressive peoples, who were futilely consuming the limited natural resources of the world. Where was he wrong, if Duty is to be the sole Deity, and the future of the world the only futurity? So far as we can see, if Christ was wrong, and we are not to draw nearer to God, the true line of duty has been wretchedly mistaken, and would, when discovered, enfore on the higher races a vast task of destruction, and not of reparation and, [illegible] the other, or social one; and Mr. Whitworth's creed, which he thinks so kindly, ends in this,—that man, abandoning a supernatural deity, sets up a natural one, who by possibility may teach slaughter as his first work.

PATENT WROUGHT NAILS.

J. J. CORDES & Co.,
The Patentees and Sole Manufacturers of the well-known Patent Wrought Nails, commonly known as
"EWBANK'S NAILS,"
Desire to make it known that a "STAR" or "CROSS" is their Trade Mark, and that all Nails made and sent out by them, except clasp, bear this mark upon their heads, and that within every Package sent from their works is also placed a card bearing their Name and Address.
Any Nails, therefore, which are not distinguished as above, must not be confounded with
"EWBANK'S NAILS,"
the quality of which is so well appreciated as being far superior to that of any other make.

GRATEFUL—COMFORTING.
EPPS'S COCOA.
(BREAKFAST.)
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article in the *Civil Service Gazette*.

CURE OF RHEUMATISM AND SCORBUTIC ERUPTION.
The Elms, North Cheam, Surrey, S., 8th March 1875.
"SIR,—I had been suffering from rheumatism for several years, together with scorbutic eruption of the skin, of a local nature, about the size of the palm of the hand, and was induced to try your Blood Mixture in consequence of two gentlemen in my neighbourhood having been cured of obtaining relief in the body. After taking two bottles I became much better, and continued it up to the fifth bottle, when I found the rheumatism had left me, and my arm was healed. I consider it a most valuable medicine.

PHOSPHO! PHOSPHO!! PHOSPHO!!!
A NON-ALCOHOLIC SPARKLING RESTORER.
THIS new BEVERAGE, which has been under trial for some time past, is pronounced on competent authority to be an excellent TONIC RESTORER in all those forms of nervous disorder in which Phosphorus and Iron are indicated. As it stimulates and invigorates both the MIND and the BODY, we have no hesitation in stating that it is one of the most invaluable NERVINE TONICS extant, and is especially beneficial in constitutions enfeebled through OVERWORK, NERVOUS DEBILITY, and EXHAUSTION. Though a medicinal BEVERAGE, the taste of the salts entering into its composition has been almost completely disguised, and rendered agreeable to the palate, and may therefore be taken in the place of ordinary aerated water.

PROVISION FOR OLD AGE COMBINED WITH A PROVISION FOR THE WIDOW AND ORPHAN.
EXAMPLE.
A CIVILIAN, European or Native, aged 20 next birthday, wishes to lay apart a sum of [illegible] FIFTEEN RUPEES a month in such a manner that [illegible] amount [illegible] from [illegible] and that should he die [illegible] forehand, a provision will be [illegible] payment of a sum of Rs. 163-0-0 per annum (or at the rate of about Rs. 13-0-0 per mensem) as the premium for an endowment Assurance, he will become entitled to Rs. 5,000 on attaining age 55; and should he die before attaining that age—even after payment of only one year's subscription—the full sum of Rs. 5,000 will be paid to his representatives. [*Vide* Table III. of Prospectus.]
THE SAME PROVISION, IF COMMENCED

at age 25 would cost about	FIFTEEN RUPEES a month;
at age 30	EIGHTEEN RUPEES a month;
at age 35	TWENTY-ONE RUPEES a month
at age 40	TWENTY-EIGHT RUPEES a month;
at age 45	FORTY ONE RUPEES a month;

The rates for other Ages, also for Endowments payable at Ages 45, 50, and 60, and all further information, may be obtained on application
Premiums can be paid half-yearly, quarterly, or monthly, at slightly increased rates.
There is an obvious advantage in effecting Investments of this nature *early in life*:—by delay the rate of subscription increases:—death may occur before the intended provision is made:—or health may fail and render the life ineligible for Assurance.

ORIENTAL LIFE COMPANY.
HEAD OFFICE:—ELPHINSTONE CIRCLE, BOMBAY.
MANAGER AND ACTUARY
D. McLAUCHLAN SLATER, F. I. A.
N.B.—Every Payment of Premium carries its Proportionate value, which cannot lapse, and for which Promissory Notes is granted.

ADVERTISING AT RAILWAY STATIONS.
THE Proprietor of the "BOMBAY GAZETTE" Press having leased from the *GREAT INDIAN PENINSULA RAILWAY COMPANY* and the *BOMBAY, BARODA AND CENTRAL INDIA RAILWAY COMPANY*, the exclusive right of advertising at all the Railway Stations belonging to these two Companies, is prepared to contract with parties desirous of posting Notices of Advertisements on the lines.
The announcements may be in English or in any of the Native Languages.
The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England, [illegible] [illegible] [illegible] [illegible] in the United Kingdom.
INSURANCE COMPANIES, SHIPPING COMPANIES, HOTEL-KEEPERS, MERCHANTS, TRADERS and others who wish to force their business on the notice of the public, all alike value the privilege of Railway Station Advertising.
There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines of Western India, Native Merchants, Traders, &c. seeing that they have the privileges of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.
And as nearly ALL TRAVELLERS ARRIVING IN INDIA NOW LAND AT BOMBAY and proceed by the G. I. P. or B. B. and C. I. Railways to their destinations, Placards exhibited at the different stations on those lines are every day becoming more and more valuable as means of bringing the Advertisers' business to the notice of the public.
Advertisers can select the stations, on either line, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely moderate scale to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.
Placards, according to the taste of Advertisers may be printed at moderate charges in English or any of the Native languages at the "BOMBAY GAZETTE" Press. Estimates on application.
RATES.
Boards not exceeding 2 feet long and 2 feet broad Rs. 2 per month. For every additional square foot annas 8.
Thus a firm exhibiting a board, say 4 feet square, will have the advantage of having his business Advertisement read by thousands of passengers on one station platform for the trifling monthly expenditure of Rs. 2. Parties advertising on six stations or more will be allowed a discount of ten per cent.; on twelve stations or more twenty-five per cent.
The boards to be delivered at the "BOMBAY GAZETTE" OFFICE, whence they will be sent by the Lessee to the various stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.
Special arrangements for long periods.
For further particulars apply to THE MANAGER, "BOMBAY GAZETTE" OFFICE, Rampart Row, Fort.
